How to lead a gender balanced church supporting healthy singleness, dating, marriage & youth

'OF SUPREME IMPORTANCE FOR US ALL'
from the Foreword by Nicky and Sila Lee

If there are fewer Christian men than women, how does that affect me, my family and my church?

This unique handbook for church leaders and other Christians blends research, theology and very practical approaches. It explains how the lack of men in our congregations is seriously impacting on men, women and young people, as well as singleness, dating, marriage and parenting. But it also shows what it could look like if things were working well in the church for us all. Written by experts in their fields, *7 Reasons Your Church Needs More Men* is a resource to help you both understand the problems and implement solutions in your context, whether at a personal, local church or national church level.

'This book takes an honest look at the gender imbalance in the church and the extraordinary impact of that imbalance on so many lives across the generations.

It asks real questions that we need to face, calling us to work together...especially to look at our evangelism and discipleship of men.'
